26 MARCH 2024 | Online

Who are we?

- **Cyprus Energy Agency**- Non-governmental, not for profit organisation
- Set up to support local authorities and wider society on the island in the energy transition
- Through offering: technical support in the development of strategies, action plans and in the implementation of projects; training and capacity building activities; technical expertise and advice
- Active across a diverse portfolio of thematic areas: RES, energy efficiency, sustainable mobility, climate change adaptation, NbS

What do we hope to gain from ADAPTO?

Enhance CEA's existing technical know-how in developing CC adaptation action plans, and in particular:

- In setting appropriate quantitative adaptation targets
- In the use of Copernicus products and other modelling tools for understanding climate hazards and impacts
- Designing appropriate adaptation projects/measures that result in CC risk reduction
- Developing a suite of KPIs that monitor risk reduction of adaptation projects
- Identification of Good Practices that can be replicated in the context of Cyprus

What do we bring to ADAPTO?

- Technical and Scientific coordination of the project
- Experience in Climate Change Risk Assessment methodologies
- Experience in funding for adaptation actions-CEA coordinates grant scheme funded by the RRF which provides grants to local community councils for implementing adaptation measures
- Knowledge of the barriers around the uptake of adaptation actions
- Links to our existing networks-FEDARENE, Covenant of Mayors, Enterprise Europe Network

Thank you!
